

On meeting:

K. Burns – note taker
P. Burnett
S. Bell
D. Palmer
J. Dunlop
V. Nelson – not taker for Chief Sloly
P. Sloly
J. Leblanc
R. Lucas
H. Ogilvie
R. Bernier
C. Huneault

- Bernier – need update from R. Lucas – turn in situation from downtown
- Lucas – 9:00 am – less than 20 on the Hill – 100 to 200 around Wellington – same numbers, parked in different places
- Between 7:00 am to now – 250 people in core – RCMP, OPP and POU – Cornwall being pulled back immediately
- Coming up – officers are reporting the protesters are much more entrenched – change in dynamics – number of convoys coming in today – some have been cancelled – coming in from Quebec – lane reduction on MacDonald Cartier to redirect vehicles
- Lansdowne park protest being looked at
- At NCRCC now
- Bernier – bit of a progress report – in process setting up Command Table – today and tomorrow to bring it together – Russ is “at the time” – we are looking strategically ahead next 24, 48 and 72 hours
- Need more people at the table – reached out to DC Bell – Drummond, Kavanagh, and Intel over at NCRCC
- Bell – hold till end, need to have a larger discussion on structure at end of meeting
- Dunlop – Intel – today we are looking at on Hill – not a lot of numbers – ones that are here are more embolden and aggressive – SQ – stroke off quite a few that were originally talked about – by far mostly vehicles as opposed to tractor trailers – couple of hundred – odd tractor – 1000 or so individuals
- Ontario side – roughly 505 in red zone 140 at Coventry – Ambassador about 30 – Nova Scotia seems to be having their own Convoy – most of information is that vehicles are not coming to stay – Toronto – small group
- [REDACTED] – leaving Saskatchewan yesterday and haven’t got number – associated to [REDACTED] (Small group here – 5 persons) – intel from RCMP – hopefully small group
- Bell – adding to – information out of OPP – Carrique – operation is starting at Windsor bridge to demobilize that whole group – being captured on TV
- Cornwall bridge gone - occupied – a lot of movement across the province today – have to keep an eye on it

- Sloly – question – did we know about the OPP operation at the Windsor Bridge prior to it happening – Dunlop – decision was not conveyed to me
- Bernier – last night at NCRCC – updated by Springer about the whole process taking place – Minister of Health drafted a letter to serve on everyone to denounce leaders – PLT were to move in last night and serve the letter – if they were not going to vacate (150) action would be taken – mobilized 300 POU to roll out this morning to move them out
- Deputy Minister of Public Service at Federal level also working on level to serve to all Event Leaders for Ottawa portion – announce process and demobilized – Bell was contacted last night to update
- Sloly – all good information – comments – make sure lines of communication – Windsor to Cornwall almost immediately – here to Windsor almost immediately – need to prepare for what counter action is, while happening
- Sloly – fear is level of communication/trust is not happening – Windsor affects all – if we didn't have proper warning, have to tighten this up – make sure message is conveyed – make sure Bryden is conveying that
- Bell – we should be talking to Carrique about establishment about Command and Control – looking at overall coordination at all levels is important – that what NOC is for
- Sloly – right now we have Bryden, Drummond and daily call – is a level in place, but three levels of Provincial coordination already in place – should have been made aware – raise as concern
- Sloly – clearly OPP knew that letter was going to be served and take back their intersection – if this happens at Wellington – 500 trucks, 150 POU's no ability to serve – need to know if this happens – don't have resources – Bernier – track this down – need to know when this letter is being served don't have the resources
- Bernier – provide recommendation on front, Senior Command level needs to reach out, not A/Supt. Bernier – Sloly – has been reaching out directly for 10 days – lets make it happen
- Bernier – update from Windsor – 10:10 – Needam – all vehicles have left the area – protesters on foot – tents supplies moved, no injuries to report
- Bell – Chief will need to get more info from Bernier on letter and set up meeting with Public Safety

- Steinbachs – if convoy arriving from Quebec are we asking SQ to close the Bridge (Dunlop) – more a Bernier or Lucas question – Steinbachs why are they allowed to cross
- Lucas – not going to close it right now – lane closures – Steinbachs – do we have the authority to close on our end – who controls the bridge, can it be closed
- Bell – Lucas and Bernier take this away and find out – why are we not closing the bridge
- Sloly – bridge closed – wants it done – close everything, not debating
- Sloly – no more trucks in downtown core
- Steinbachs – lane mitigation or whatever needs to be communicated with Traffic Ops

- Sloly – action immediately – send request to SQ and OPP – want OPP to ensure no more convoys coming into our City

- [REDACTED]
- Bell – have a desire to close bridge – Bernier, Drummond and Huneault drop off call and look at how to get it done
- Sloly – create the zone first, do paperwork after
- Bell – will look at how to make it happen – portion of plan that needs to be done today
- Drummond – Traffic out doing enforcement
- Sloly – if higher priority now – we relocate them – Drummond – traffic will be best used to close down bridges, et
- Dunlop – update on Investigations – currently 24 more calls – 1052 calls – truck driving slowly by schools, swearing at children and parents, vehicles pretending to be emergency vehicles – no arrest (25, 15 charged) 44 tickets issued, coming up to 417
- Broader – a lot more digging through social media
- Sloly – assuming we get through this weekend extremely well and posture does not change through Red Zone wants Rob and Team to consider – even though not arresting, hopefully we are capturing their faces – can still arrest people locally – have we considered arresting them once they are away from the scene – we can issue criminal summonses so they know they are under CC – Bernier – will get this tabled, plan make sense, have resource issue – volume you are dealing with (follow up) might be challenge
- Bernier – once you have team together will look at
- Steinbachs – Mayor’s office has requested arial photos by noon – need answer before noon
- News release (if any changes) look at
- Need numbers of other partners
- Bridge – do we control King Edward and Rideau – colossal failure if something we know about is allowed in – urge us to consider closing
- Media – using Steve on a couple of one on ones but not doing Media
- Lucas – 3 bridges currently closed – only impact from shutting it – MacDonald Cartier – are health care workers – Chaudiere is open
- Sloly – close the bridges – already done it – put the same plan in place as COVID
- Multiple other significant operations going on – very fluid – may impact us here locally – making real time adjustments – that includes closing bridges

- [REDACTED]
- Email went out that if officers see arrest and seize, didn’t have to hold the evidence (gas) – Crown did not give advice on that – continue to follow policy in place

- [REDACTED]
- Steinbachs – do need staffing data – Lucas – Gagnon will contact you are around road and bridge closures
- Sloly – staffing standpoint – Steve, Bernier send Dunkar an email to get staffing information today – who will it be
- Bernier – Palmer – managing all external resources
- Sloly – Bridge closures and Highway ramps closure – don’t want trucks coming in until we understand what is going on around the Province – cannot afford anymore trucks coming into the City

- Bernier – have one on one conversation with Carrique
- Sloly – already done
- J. Sweet – nothing to update – will work with Debbie on staffing numbers – will have updates on Monday with actuals over the weekend
- Bernier – as he mentioned early, Deputy Springer did notify Bernier last night of Operations and was given to DC Bell last night
- Sloly –will need to be made aware of any potential operations that will affect us locally as soon as possible
- Will then need to know that real time adjustments are being made
- Now at 10:45 am discussing changes when we could have been doing it last night
- Bell – get a better briefing process
- Sloly – liking the direction we are going in
- Chief to Steinbachs – meeting with Steve, Christiane, and Chief
- Reaching out to Commissioner directly to see if we are getting more officers
- Want to ensure we are lined up at other levels
